

The diagram illustrates a virtual machine environment. A large black-outlined rectangle represents the host computer. Inside this rectangle, on the left, is a red-outlined rounded rectangle representing the VirtualBox software. Within the VirtualBox rectangle is a black-outlined rounded rectangle representing the virtual PC. This virtual PC contains the text '仮想PC' and 'Linux'. To the right of the VirtualBox rectangle, within the host rectangle, is the text 'ホストコンピュータ (Windows)'. The host rectangle has a 3D effect with a parallelogram base at the bottom.
